

Prof. Maode Ma, a Fellow of IET, received his Ph. D degree from the Department of Computer Science at the Hong Kong University of Science and Technology in 1999. Prof. Ma is a research professor in the College of Engineering at Qatar University. Before joining Qatar University, he has been a faculty member at Nanyang Technological University in Singapore for over 20 years. Prof. Ma has extensive research interests including network security, AI applications, and wireless networking. He has led 26 research projects funded by the government, industry, military, and universities in various countries. He has supervised 26 research students to get their Ph. D degrees. He has been a conference chair, technical symposium chair, tutorial chair, publication chair, publicity chair, and session chair for over 100 international conferences. He has been a member of the technical program committees for more than 300 international conferences. Prof. Ma has over 520 international academic publications including more than 260 journal papers and about 260 conference papers. He has edited a few technical books and produced 28 book chapters. His publication has received about 12000 citations on Google Scholar. He has delivered over 100 keynote speeches and 12 tutorials at various international conferences. Prof. Ma serves as the Editor-in-Chief of the International Journal of Computer and Communication Engineering and the Journal of Communications. He also serves as a Senior Editor for IEEE Communications Surveys and Tutorials, and an Associate Editor for the International Journal of Wireless Communications and Mobile Computing and the International Journal of Communication Systems. Prof. Ma is a senior member of the IEEE Communication Society. He has been a Distinguished Lecturer for the IEEE Communication Society from 2013 to 2016 and from 2023 to 2024.
