PROFESSIONAL SUMMARY

Dynamic academic professional with over 10 years of teaching and research experience in Geography, Geopolitics, and Rural Planning. Published multiple articles in reputable journals and translated five academic books. Expertise in GIS, SPSS, and AI applications in research. Passionate about sustainability, policy development, and rural community empowerment. Proven ability to lead curriculum design, academic networking, and international collaborations. Fluent in Pashto, Persian, and English, with extensive experience in research dissemination and academic publishing. Experienced in **translation between Pashto, Persian, and English, public awareness campaigns, workshop facilitation, and AI integration in academic research**.

OBJECTIVE

Seeking research, translation between Pashto, Persian, and English, teaching, and consultancy opportunities in higher education institutions and international organizations where I can apply my expertise in **rural development, environmental sustainability, research, and policy analysis** to drive impactful solutions. Additionally, I am open to roles in **administrative services, research coordination, translation, academic writing, capacity building, community engagement, training and workshops, public awareness campaigns, empowerment programs, project management, and academic consulting.** With extensive experience in **academic publishing, curriculum development, and interdisciplinary research**, I aim to contribute effectively to institutions and organizations that prioritize innovation, knowledge dissemination, and sustainable development.
