Assistant Professor

Lead comprehensive training programs in modern web technologies including MERN Stack, MEAN Stack, and Python for higher education students.

Technical Trainer

Seeking a dynamic Technical Trainer with expertise in MERN, MEAN, Python, etc to design and deliver engaging curriculum for graduate and postgraduate students.

Technical Trainer

- I need to train the students on MERN Stack and Python.
- Live Teaching which includes Online Cohort Live sessions, 1:1 Live sessions, assignment evaluations, Doubt Clearing, and Co-creation of the curriculum.
- I need to perform Co-Creation of relevant assessments and other e-learning material for students and Teaching Assistants(TA) training for evaluations, doubt clearing, etc.

Full Stack Project Manager

- I need to train the students on different full-stacks like MEAN and MERN Stack.
- Live Teaching which includes Online Cohort Live sessions, 1:1 Live sessions, 1:1 Foundations, Assignment Evaluations, Doubt Clearing, Co-creation of curriculum.
- I need to perform Co-Creation of relevant assessments and other e-learning material for students and training of Teaching Assistants(TA) for evaluations, doubt clearing etc.

Senior Teacher Leader (Assistant Manager)

- I need to train the teacher on different products and class-wise concepts.
- I need to act as a helping-hand to all the active teachers in the 'PRO' pod curriculum.
- I need to create assessments, capstone project etc.
- I worked and supported on different aspects like JDK, ReactJS, JS etc

Assistant Professor

- I need to teach, support all the students from different courses of BCA, BSc, MCA, MSc, Computer Science Dual-degree students.
