Bachelor Of Technology:
Computer Science
Jawaharlal Nehru Technological University Hyderaba
Hyderabad

Certifications & Licenses

Microsoft Power BI Data Analyst

Summary

Data Analyst with over 3 years of experience in Business Intelligence and Data Operations, specializing in delivering actionable insights for business and educational initiatives. Proficient in Power BI, SQL, Python, and Excel, with a track record of creating scalable dashboards and reports from business requirements. Experienced in agile methodologies, stakeholder engagement, and ensuring data quality and compliance. Skilled in managing multiple priorities in dynamic environments to enhance operational efficiency and support data-driven decisions.

Experience

Careernet Technologies - Prime Video - Data Analyst
Hyderabad, IN
01/2025 - 12/2025

- Developed and maintained **BI dashboards** using **Power BI and AWS QuickSight** to track **SLAs, KPIs, and operational performance**, enabling leadership decision-making.
- Designed and optimized data processes and ETL workflows to support large-scale content operations across APAC, and global markets.
- Performed **data analysis and validation** to ensure **data accuracy, integrity, and compliance** across metadata, availability, and content readiness datasets.
- Automated recurring workflows using Python, reducing operational delays by 50%, and improving data accessibility.
- Translated **business and operational requirements** into technical reporting solutions, integrating data from multiple internal systems.
- Collaborated with global stakeholders, system teams, and vendors to resolve escalations, improve processes, and deliver high-quality outcomes.
- Supported costing, budgeting, and vendor workflows, ensuring accurate data reporting, and audit readiness.
- Ensured adherence to data security, privacy standards, and internal compliance policies.

Infosys Ltd - Systems Engineer
Hyderabad, IN
06/2022 - 11/2024

- Delivered **routine and ad-hoc analytics** using **SQL, Python, and Excel** to support strategic and operational business needs.
- Designed and implemented interactive Power BI dashboards and paginated reports, supporting executive reporting, and KPI tracking.
- Built and optimized SQL datasets and data models, enabling scalable reporting, and improved query performance.
- Created insight-driven Power BI dashboards to monitor performance metrics and trends, enabling stakeholders to evaluate effectiveness, and optimize planning
