PROFESSIONAL SUMMARY

Results-driven Academic Portfolio Consultant with proven expertise in helping researchers, engineers, and technology professionals build strong profiles for global immigration pathways including EB1A, EB2 NIW, UK Global Talent Visa, and Australia National Innovation Visa.

Specialized in research publication, citation growth, peer review positioning, and professional recognition strategies. Adept at transforming client experience into immigration-ready evidence portfolios that meet international standards of excellence.

PROFESSIONAL EXPERIENCE

Academic Portfolio & Immigration Consultant

Independent Consultant | Remote

2023 – Present

Successfully guided multiple professionals in building strong profiles for EB1A and EB2 NIW applications

- Developed and published research articles in reputable indexed journals
- Assisted clients in increasing citations and improving research visibility
- Facilitated peer review invitations to strengthen “judge of the work of others” criteria
- Helped clients secure memberships and fellow recognition in professional organizations
- Created media features highlighting client achievements for international recognition
- Drafted high-impact recommendation letters aligned with immigration requirements
- Research & Publication Specialist

Freelance / Contract-Based

2022 – 2023

Wrote and edited academic manuscripts across AI, cloud computing, and cybersecurity fields

Supported journal selection and submission processes for Scopus-indexed publications

Provided formatting, proofreading, and technical writing support

Collaborated with researchers to improve publication success rates
